Course Overview

Boost your customer service, administrative, and back-office skills by getting certified in KYC and CDD by AGRC. This certificate will provide you with the tools and knowledge required to become an invaluable member of any institution®s client onboarding and customer retention process. A key concern and significant risk for financial institutions remain the possibility of unknowingly becoming complicit in money laundering actions, where illegitimate money is moved into legitimate institutions. In order to mitigate such risk, FIs have strengthened their internal control systems by increasingly making use of Know Your Customer (KYC) and Customer Due Diligence (CDD) requirements, as part of their anti-money laundering (AML) strategies.

About This Course
