- Module assessment

11 - Leverage AI tools and resources for your business

- What is AI?
- Foundations of AI
- Learn the Microsoft AI approach
- Use AI embedded in everyday copilot applications
- Use Microsoft Power Platform to bring AI to your business
- Develop AI solutions with Azure AI Services
- Create custom AI models with Azure Machine Learning
- Module assessment

12 - Create business value from AI

- Create business value with an AI strategy
- Discover the characteristics that foster an AI-ready culture
- Discover the path to AI success
- Module assessment

13 - Embrace responsible AI principles and practices

- Prepare for the implications of responsible AI
- Identify guiding principles for responsible AI
- Design a system for AI governance
- Applying systems for AI governance
- Responsible AI at Microsoft
- Put responsible AI frameworks in action
- Module assessment

14 - Scale AI in your organization

- Evaluate and prioritize AI investments
- Apply a horizon-based framework
- Establish AI-related roles and responsibilities
- Empower business users with AI
- Empower subject matter experts with AI
- Module assessment

15 - Define a Microsoft AI strategy to create business value in sustainability

- AI and sustainability
- Goals and challenges in sustainability
- Opportunities for AI in sustainability
- Discover how Microsoft AI powers the global energy transition – An EDP success story
- Discover how Microsoft AI protects natural resources – A Department of Natural Resources success story
- Discover how Microsoft AI enables green mobility – A Stadtwerke München success story
- Module assessment

16 - Leverage AI tools and resources for your business

- What is AI?
- Foundations of AI
- Learn the Microsoft AI approach
- Use AI embedded in everyday copilot applications
- Use Microsoft Power Platform to bring AI to your business
- Develop AI solutions with Azure AI Services
- Create custom AI models with Azure Machine Learning
- Module assessment

17 - Create business value from AI

- Create business value with an AI strategy
- Discover the characteristics that foster an AI-ready culture
- Discover the path to AI success
- Module assessment

18 - Embrace responsible AI principles and practices

- Prepare for the implications of responsible AI
- Identify guiding principles for responsible AI
- Design a system for AI governance
- Applying systems for AI governance
- Responsible AI at Microsoft
- Put responsible AI frameworks in action
- Module assessment

19 - Scale AI in your organization

- Evaluate and prioritize AI investments
- Apply a horizon-based framework
- Establish AI-related roles and responsibilities
- Empower business users with AI
- Empower subject matter experts with AI
- Module assessment
