Duration: 8.00 hours (1 days) **6.5 CPD Hours** **Rating:** ⭐ 4.6 (5,878 reviews)

Course Information

Delivery Format:	Instructor Led - Online
Certification:	AI+ Customer Service
Related Exam:	AI+ Customer Service

Course Overview

The AI+ Customer Service course is meticulously crafted for professionals keen on transforming customer service interactions using Artificial Intelligence (AI). Starting with an introductory overview of AI's impactful role in customer service, the curriculum progresses to a detailed exploration of various AI technologies. Participants are taught effective methods for data collection and analysis, foundational steps crucial for the successful implementation of AI. The course also delves into the nuances of integrating AI solutions to enhance customer experiences, while also addressing the importance of ethical considerations and trust-building in the deployment of responsible AI technologies. As the course unfolds, learners will navigate through the evolving landscape of AI in customer service, gaining insights into future trends and technological advancements. The culmination of the course involves the development of a bespoke AI strategy, carefully aligned with the specific needs of each participant€™s organization. With a strong focus on the practical application of learned concepts, the course equips professionals with the necessary tools to excel in the dynamic field of customer service. By mastering AI-driven strategies, participants will not only enhance customer satisfaction but also drive significant growth within their organizations.
