C# Foundation

Category: Software Development & Programming | **Vendor:** Various

Duration: 16.00 hours (2 days) **13.0 CPD Hours** **Rating:** ⭐ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

- Knowledge of C# syntax and familiarity with the .NET Framework development environment.
- Creating simple programs
- Read and adapt existing code

About This Course

C# is an object-oriented programming language for applications on Microsoft's .NET platform. With C#, you can create Windows desktop applications, Windows services, ASP.NET web applications, REST services, apps for iOS and Android, and more - in short, any kind of program on almost any platform. In this introductory course, you'll learn key language features within the .NET framework and the associated Visual Studio development environment.

- First steps with C#
- Classes and objects
- Basic data types
- Sequence control: branches and loops
- Operatoren
- Inheritance and interfaces
- Properties and Indexer
- Structured exception handling

Who Should Attend

Programmers who already have some experience with a C-based language such as C/C++, Java, Python or JavaScript.
