HPE Aruba Networking ClearPass Configuration

Category: Networking & Security | **Vendor:** HPE Aruba Networking

Duration: 40.00 hours (5 days) **32.5 CPD Hours** **Rating:** ⭐ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

The 5-day HPE Aruba Networking ClearPass Configuration course prepares you with foundational skills in Network Access Control using the ClearPass product portfolio. This course includes both instructional modules and labs to teach you about the major features of the ClearPass portfolio. You will learn how to set up ClearPass as an AAA server, and configure the Policy Manager, Guest, OnGuard, and Onboard feature sets. In addition, this course covers integration with external Active Directory servers, monitoring and reporting, as well as deployment best practices. The student will gain insight into configuring authentication with ClearPass on both wired and wireless networks

About This Course

Introduction to HPE Aruba Networking ClearPass

- Network Access Control
- ClearPass use cases
- ClearPass system

AAA

- AAA explained
- Authentication sources

External devices

- Network access devices
- Messaging services
- External context servers

Endpoint profiling

- Introduction to profiling
- Profiling collector

Roles and enforcement

- Services
- Enforcement
- ClearPass roles

Configuring services

- Service selection rules
- Creating services

Configuring web services

- Content Manager
- Skins
- Web page editor

Guest authentication

- Captive portal process
- Web logins
- Guest accounts
- Guest access with MAC authentication

Guest access self registration
