Course Overview

This course is designed to bring you up to speed on the enhancements added in the ITIL® (Version 5) Foundation, assuming you have experience/certification in the previous ITIL® 4.

The ITIL® (Version 5) Foundation Bridge Training provides a focused update for professionals transitioning from ITIL® 4 to the latest version of the framework. It highlights the evolution towards digital product and service management, lifecycle thinking, governance, and AI-enabled service ecosystems.

Learners will explore service relationships and value co-creation, the ITIL Value System and governance, the unified Product and Service Lifecycle, value streams and value stream mapping, and continual improvement. The course also introduces how AI is changing product and service management, what AI governance means in an ITIL context, and how ITIL complements DevOps and PRINCE2 for end-to-end value delivery.
