PL-7002 Create and Manage Automated Processes by using Power Automate

Category: AI, Data & Analytics | **Vendor:** Microsoft Technical

Duration: 8.00 hours (1 days) **6.5 CPD Hours** **Rating:** ⭐ 4.6 (5,878 reviews)

Course Information

Delivery Format:	Instructor Led - Online
Certification:	Microsoft Applied Skills: Create and manage automated processes by using Power Automate
Related Exam:	PL-7002

Course Overview

Get started with Power Automate by create and manage automated processes with Power Automate. Including creating triggers for cloud flows, configuring actions, implementing conditional logic for a cloud flow, testing a cloud flow, creating and configuring approvals by using Power Automate, and sharing cloud flows.

About This Course

Get started with Power Automate by create and manage automated processes with Power Automate. Including creating triggers for cloud flows, configuring actions, implementing conditional logic for a cloud flow, testing a cloud flow, creating and configuring approvals by using Power Automate, and sharing cloud flows.

Who Should Attend

Fundamental understanding of Power Platform, Basic understanding of Power Automate

Prerequisites & Entry Requirements

General Prerequisites:

- Fundamental understanding of Power Platform
- Basic understanding of Power Automate.

Learning Outcomes

Upon successful completion of this course, participants will be able to:

Course ObjectivesGet started with Power AutomateBuild approval flows with Power AutomateBuild flows to manage user informationPower Automate's deep integration across multiple data sourcesGuided Project - Create and manage automated processes with Power Automate, Course ObjectivesGet started with Power AutomateBuild approval flows with Power AutomateBuild flows to manage user informationPower Automate's deep integration across multiple data sourcesGuided Project - Create and manage automated processes with Power Automate, Course ObjectivesGet started with Power AutomateBuild approval flows with Power AutomateBuild flows to manage user informationPower Automate's deep integration across multiple data sourcesGuided Project - Create and manage automated processes with Power Automate, Course ObjectivesGet started with Power AutomateBuild approval flows with Power AutomateBuild flows to manage user informationPower Automate's deep integration across multiple data sourcesGuided Project - Create and manage automated processes with Power Automate, Course ObjectivesGet started with Power AutomateBuild approval flows with Power AutomateBuild flows to manage user informationPower Automate's deep integration across multiple data sourcesGuided Project - Create and manage automated processes with Power Automate, Course ObjectivesGet started with Power AutomateBuild approval flows with Power AutomateBuild flows to manage user informationPower Automate's deep integration across multiple data sourcesGuided Project - Create and manage automated processes with Power Automate, Course ObjectivesGet started with Power AutomateBuild approval flows with Power AutomateBuild flows to manage user informationPower Automate's deep integration across multiple data sourcesGuided Project - Create and manage automated processes with Power Automate, Course ObjectivesGet started with Power AutomateBuild approval flows with Power AutomateBuild flows to manage user informationPower Automate's deep integration across multiple data sourcesGuided Project - Create and manage automated processes with Power Automate, Course ObjectivesGet started with Power AutomateBuild approval flows with Power AutomateBuild flows to manage user informationPower Automate's deep integration across multiple data sourcesGuided Project - Create and manage automated processes with Power Automate, Course ObjectivesGet started with Power AutomateBuild approval flows with Power AutomateBuild flows to manage user informationPower Automate's deep integration across multiple data sourcesGuided Project - Create and manage automated processes with Power Automate, Course ObjectivesGet started with Power AutomateBuild approval flows with Power AutomateBuild flows to manage user informationPower Automate's deep integration across multiple data sourcesGuided Project - Create and manage automated processes with Power Automate, Course ObjectivesGet started with Power AutomateBuild approval flows with Power AutomateBuild flows to manage user informationPower Automate's deep integration across multiple data sourcesGuided Project - Create and manage automated processes with Power Automate, Course ObjectivesGet started with Power AutomateBuild approval flows with Power AutomateBuild flows to manage user informationPower Automate's deep integration across multiple data sourcesGuided Project - Create and manage automated processes with Power Automate, Course ObjectivesGet started with Power AutomateBuild approval flows with Power AutomateBuild flows to manage user informationPower Automate's deep integration across multiple data sourcesGuided Project - Create and manage automated processes with Power Automate, Course ObjectivesGet started with Power AutomateBuild approval flows with Power AutomateBuild flows to manage user informationPower Automate's deep integration across multiple data sourcesGuided Project - Create and manage automated processes with Power Automate, Course ObjectivesGet started with Power AutomateBuild approval flows with Power AutomateBuild flows to manage user informationPower Automate's deep integration across multiple data sourcesGuided Project - Create and manage automated processes with Power Automate, Course ObjectivesGet started with Power AutomateBuild approval flows with

Detailed Course Outline

1 - Get started with Power Automate

- Introducing Power Automate
- Create your first flow
- Troubleshoot flows
- Module assessment

2 - Build approval flows with Power Automate

- Provide solutions to real-world scenarios.
- Simulation - Build an Approval Request
- Simulation - Create a Business Process Flow
- Simulation - Create a Business Process Flow That Has Conditions

3 - Build flows to manage user information

4 - Power Automate's deep integration across multiple data sources

5 - Guided Project - Create and manage automated processes with Power Automate

- Prepare
- Module assessment

, Get started with Power Automate, Build approval flows with Power Automate, Build flows to manage user information, Power Automate's deep integration across multiple data sources, Guided Project - Create and manage automated processes with Power Automate

08 Sep 2027	08 Sep 2027	Virtual Classroom - Zoom link will be available 7 days before the cour	Virtual	€495.00

Frequently Asked Questions

Q: What delivery options are available for PL-7002 Create and Manage Automated Processes by using Power Automate?

We offer multiple delivery formats:

- Live Instructor-Led Classroom Online (Virtual/Live Online)
- Traditional Instructor-Led Classroom Training (ILT)
- On-site delivery at your offices anywhere in United Kingdom
- Private dedicated courses customized for your team

Q: What certification does this course prepare me for?

The PL-7002 Create and Manage Automated Processes by using Power Automate course helps prepare you for the Microsoft Applied Skills: Create and manage automated processes by using Power Automate certification path.

Q: Which exam does this course prepare me for?

This course prepares you for the PL-7002 official exam. You can take this exam at any exam center across United Kingdom including London, Manchester, Birmingham, Edinburgh, or live online wherever you are located.

Q: How many CPD hours does this course provide?

The 1-day PL-7002 Create and Manage Automated Processes by using Power Automate course provides up to 6.5 CPD hours of structured learning. CPD certificates can be provided upon request.

Q: What is the duration of the PL-7002 Create and Manage Automated Processes by using Power Automate training?

The training takes place over 1 day(s), with each day lasting approximately 8.00 hours including breaks for lunch and refreshments.

Q: Do you provide corporate training for PL-7002 Create and Manage Automated Processes by using Power Automate?

Yes, we provide corporate training, dedicated training, and closed classes for PL-7002 Create and Manage Automated Processes by using Power Automate. Training can take place anywhere in United Kingdom including London, Manchester, Birmingham, Edinburgh, or live online allowing teams from across United Kingdom or internationally to attend.

Q: What related terms do people search for?

Popular related searches include: PL-7002: Create and Manage Automated Processes By Using Power Automate, Microsoft, vILT, PL-7002

Q: Why choose Nexus Human for PL-7002 Create and Manage Automated Processes by using Power Automate?

Nexus Human is recognized as one of the leading training providers. Our trainers have won multiple awards including:

- Small Firms Best Trainer Award
- National Training Partner of the Year (Ireland) - Multiple Years
- Global Top 30 Instructor Awards (2012, 2019, 2021)
- Tech Excellence Award Nominations
- Learning Performance Institute (LPI) External Training Provider Sponsor 2024

Q: Are there any discount codes available?

Yes! Use discount code **PENPAL5** when booking your PL-7002 Create and Manage Automated Processes by using Power Automate training. Please note that only one discount code can be used per booking and cannot be combined with other special offers.
