Project Management Foundations - 1-day Workshop

Category: Project Management & Business Skills | **Vendor:** PMI

Duration: 8.00 hours (1 days) **6.5 CPD Hours** **Rating:** ⭐ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

Organizations that leverage project management best practices complete projects on time 28% more often and deliver on budget 24% more often than organizations that do not have a strong focus on project management standards.[1] This hands-on, discussion-oriented workshop allows students to gain a foundational knowledge of project management best practices and provides the opportunity to apply their project management learnings to real-life scenarios. Covering both predictive and adaptive approaches, the workshop emphasizes utilizing the latest practices, such as Artificial Intelligence (AI), that will be most effective within your organization. Upon completion of the workshop, students will receive a certificate of completion. This workshop course is offered as either a 1 or 2 day course to fit your schedule needs. Note: This course has been approved by PMI for 8 PDUs.

About This Course

Organizations that leverage project management best practices complete projects on time 28% more often and deliver on budget 24% more often than organizations that do not have a strong focus on project management standards.[1] This hands-on, discussion-oriented workshop allows students to gain a foundational knowledge of project management best practices and provides the opportunity to apply their project management learnings to real-life scenarios. Covering both predictive and adaptive approaches, the workshop emphasizes utilizing the latest practices, such as Artificial Intelligence (AI), that will be most effective within your organization. Upon completion of the workshop, students will receive a certificate of completion. This workshop course is offered as either a 1 or 2 day course to fit your schedule needs.
