Duration: 16.00 hours (2 days) **13.0 CPD Hours** **Rating:** ⭐ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

Role & Responsibilities for Product Owners & Product Managers

Learn how to complete the day-to-day responsibilities of a SAFe Product Owner or Product Manager, including backlog ownership, forecasting, and management of risks and dependencies.

Lead and Support PI Planning

Understand how to prepare for and lead PI planning, aligning vision and roadmaps with business goals while working with teams to establish clear PI objectives.

Product Delivery

Use lean-agile thinking and customer-centricity to define, prioritize, and deliver features and stories that can be built, tested, and delivered quickly.

AI Skills for Modern Product Roles

Learn practical techniques to apply AI in backlog refinement, prioritization, feature discovery, and customer connection while using responsible AI practices.

AI Skills for Modern Product Roles

Learn practical techniques to apply AI in backlog refinement, prioritization, feature discovery, and customer connection while using responsible AI practices.

Who Should Attend

The SAFe Product Owner/Product Manager (POPM) certification course is for anyone involved in defining, delivering, or managing products in a SAFe environment. If you’re responsible for setting product direction, prioritizing features, or working with agile teams to bring customer-focused solutions to life, this course will give you the skills and structure for success in a SAFe organization.

- Project Managers
- Scrum Masters
- Business Analysts
- Product Owners
- Product Managers
- Program Managers

Learning Outcomes

Upon successful completion of this course, participants will be able to:

- Earn the SAFe Product Owner/Product Manager (POPM) certification, take on additional responsibility, and strengthen your role in product strategy and execution.
- Learn how to work lead PI planning effectively and collaborate with agile teams and the broader Agile Release Train (ART).
- Gain the skills to define, prioritize, and manage product backlogs in an enterprise using SAFe.

After completing the course, you'll be eligible to take the SAFe Product Owner/Product Manager exam. Passing the exam earns you a recognized certification and shows that you're ready to support value delivery at scale as a PO or PM in a SAFe organization.
